I'm sending a video via WhatsApp. This commercial space is for sale in Las Lagunas de Mijas. It has 123 square meters of space and 13 square meters of common areas. It is currently divided into two areas with an access door. It could be converted into a home, as it has a rear window that opens onto a communal patio. There is currently a door to that patio, but the patio is communal. It has one bathroom. The original ceiling height is 3.37 meters. The area with the false ceiling currently has a height of 3.12 meters. The gate measures 2.63 meters high x 3.46 meters wide. It could be made higher up to 3.45 meters and wider up to 8.50 meters by removing the current dividing wall. It is in good condition and ready to use.
